Plastic Solutions

Kalitemiz

Monopol Plastik is an export-oriented company that manufactures plastic products using the Plastic Injection Molding method.

The company specializes in the production and sale of:

For the Bathroom Sector: Shower tray installation kits, shower tray drains (siphons), and complementary accessories made of plastic and/or metal.

For the Food Sector: The company is specialized in the production of thin-walled food packaging manufactured using the plastic injection molding method.

In thin-walled food packaging, we have IML (In-Mold Labeling) capability. The products we manufacture are produced in line with customer demands, offering options such as frozen, cold/hot filling, leak-proof, and foil sealable applications.

With our flexible, efficient, and customer-focused production system, we provide our customers with products from our existing range, as well as comprehensive support for new projects, starting from design, mold production, and trial runs.

Monopol Plastik offers comprehensive solutions for all your needs that can be produced using the plastic injection molding method, targeting both the bathroom and food packaging sectors. We provide services for product design, mold making, and part production with our expert team, tailored to customer demands and sector requirements.

We carry out our work based on the principles of being economical, sustainable, competitive, and continuous improvement, starting from the design phase.

We are ready to offer long-term, contractual solutions for your existing or new businesses, helping you to reduce your costs and strengthen your competitiveness.

Mold Design & Production

Part Production

Monopol Plastik offers comprehensive solutions for all your needs concerning the bathroom and food packaging sectors. We provide services in areas such as product design, mold making, and part production with our expert team, tailored to customer demands and sector requirements.

In every project, we develop solutions to meet the most challenging demands in the industry, utilizing state-of-the-art production methods and high-quality materials. Across different categories such as bathroom products or food packaging, we meet customer expectations at the highest level by offering functional, aesthetic, and durable products.

Whether for small-scale projects or large-volume productions, we provide professional support at every stage. From the design processes through to the production and assembly phases, we work to offer our business partners fast, reliable, and cost-effective solutions. With our specialized team in mold production, we design molds that are customized to your needs and fit perfectly, ensuring the high-precision manufacturing of every single part.

At Monopol Plastik, we make a difference in the industry not only through product manufacturing but also with high-quality control processes, a customer-centric approach, and a guarantee of on-time delivery. We are a reliable business partner where you can find all the services you need for bathroom products and food packaging production in a single location.

Bathroom Group

Shower Tray Drains (Siphons)

Monopol Plastik offers high-quality drain solutions (siphons) for bathroom and shower systems. Our products are manufactured from durable materials, ensuring a long lifespan and efficient water flow.

Our shower tray drains provide great convenience to both users and installation teams with their features of easy assembly and maintenance. Every drain is manufactured in compliance with quality standards and aims to maximize customer satisfaction.

Shower Tray Riser/Mounting Kits

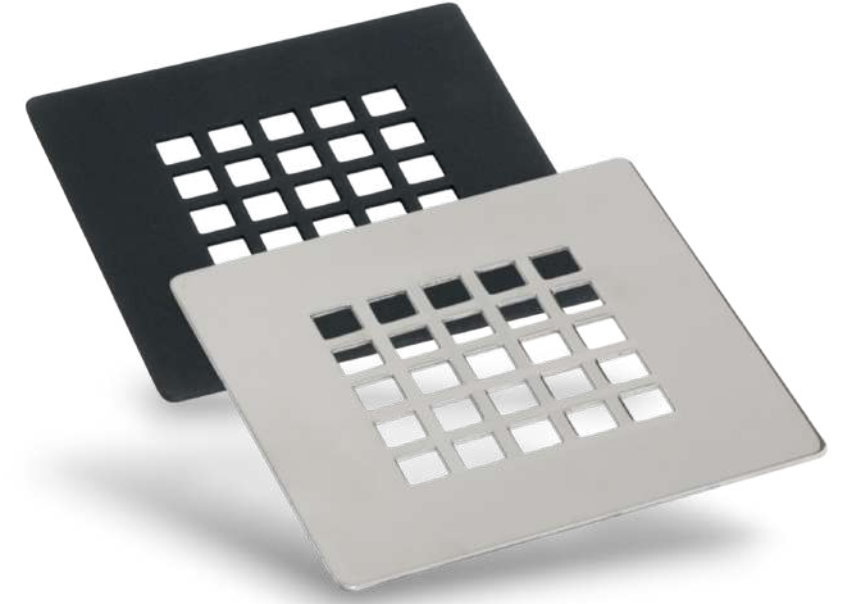

Monopol offers practical and reliable solutions for shower tray installation. Our riser/mounting kits are specifically designed for use in areas with low bathroom floors, making the installation process quick and easy. Our products ensure long-term use with their features of high durability and water-sealing properties (watertightness). Every kit is manufactured with high-quality materials and includes all the necessary components to facilitate professional installation.

Our shower tray drains offer great convenience to both users and installation teams with their features of easy assembly and maintenance. Every drain is manufactured in compliance with quality standards and aims to maximize customer satisfaction.

Paslanmaz/Metal Duş Izgaraları

Our grates, specifically designed for use in bathroom and shower areas, stand out with their long-lasting and stainless (rust-proof) properties. In addition to their aesthetic appearance, their high durability and resistance to water make them suitable for all kinds of usage conditions. Their easy-to-clean structure ensures hygiene and ease of maintenance.

Shower Tray Panels

We offer high-quality panels suitable for all types of shower tray models.
